

MAKING A DIFFERENCE IN THE LIVES OF KANSANS

PREVENTION SERVICES

Mirror believes the best solution to substance misuse is to prevent it from happening to begin with. Dollars invested in education and prevention through our schools and communities are our best opportunity to make a positive impact. We know that substance abuse crosses all societal boundaries, and it is not a matter of if, but when, our kids will be offered alcohol, tobacco or other drugs. Mirror collaborates with cities and schools to address the root causes of substance abuse. Our programs motivate, educate and connect with parents, teachers, pastors and other community leaders who impact our young people on a daily basis. Mirror operates prevention services approved by the Substance Abuse and Mental Health Services Administration in Kansas communities who turn to us for help.

WORK FOR SUCCESS PROGRAM

The Mirror Work for Success Program features the Personal and Professional Development (PPD) Curriculum designed to inspire participants to realize their dreams and achieve self-sufficiency by providing hope, resources, and a plan. We believe in the value and potential of each individual, and this program will maximize each client's talents, skills and the unique passions they bring to the community and to their family so they can live the life they desire. Not only will clients learn how to get a job, they will learn how to keep a job and continue moving toward all of the success and happiness they can imagine.

OUR HISTORY

Mirror, Inc was founded in 1972 on the belief that people can and do change.

Our mission is to strengthen people and communities by helping individuals cultivate hope and redefine their lives. We're a not-for-profit, private corporation providing behavioral health care, alcohol and drug abuse prevention programs, and correctional re-entry services.

YOUR RECOVERY STARTS HERE

DRUG AND ALCOHOL ASSESSMENTS

Assessments are designed to determine where you are at in your recovery and identify individual strengths, needs and vulnerabilities. We offer a variety of assessments including DUI evaluations, professional assessments, and those mandated by the court. Jail assessments are also available.

RESIDENTIAL TREATMENT

Our 24-hour care is designed to help you become sober and achieve a level of stability before you return home. In this program you will receive the tools needed to manage your life – physically, mentally, and behaviorally. We help you plan ways to prevent a relapse and prepare for the high-risk situations that could challenge your recovery.

Our Reintegration program provides 24-hour, residential living and helps clients successfully re-enter society through a structured program that helps reinforce self-regulation and behavior conducive to recovery.

RESIDENTIAL RE-ENTRY PROGRAM

Mirror, Inc has assisted justice-involved individuals with reintegration for over 20 years. We partner with a comprehensive network of organizations throughout Kansas to better serve individuals releasing from incarceration. Understanding the barriers presented to such individuals, we provide case management support to guide our residents during their journey back into society

OUTPATIENT TREATMENT

For those who have functioning support in the community, primary treatment can often be achieved through an outpatient setting, allowing you to live on your own while in the program. Through individual and group therapy, our clients attend treatment sessions on a regular basis through one of our conveniently located outpatient offices. Services can also be received in an intensive outpatient format, depending upon each individual's unique needs.
